

SeaAir EBS II

Reference# 21081

SeaAir EBS II

A smaller and more lightweight system. Personal emergency breathing system made to the latest standards within helicopter safety for passengers and pilots/crew. System is developed by Hansen Protection in cooperation with the well recognised Poseidon Diving Systems in Sweden.

Facts

- Emergency breathing system with compressed air certified by CAA-UK according to CAP 1034
- Lightweight materials - smaller in size - cylinder volume 0.29 l
- 200 bar pressure provides approximately 60l of reserve air
- State of the art first and second stage regulators
- The regulators have very good protection against freezing; - provides safe breathing in water temperatures around zero degrees Celsius
- Ergonomic mouthpiece with nose clip that fits all noses
- For integration with:- SeaLion Europe Passenger Lifejacket- SeaLion Europe Crew Lifejacket- SeaAir Survival Suit (prepared for emergency breathing system with compressed air)

Product Detail

Lifejacket	<i>Helicopter</i>
Material	<i>Cylinder: Aluminium First stage regulator: Aluminium</i>
Cylinder size	<i>0,29 l</i>
Pressure/volume	<i>200 bar/58 litres air</i>
Dimensions	<i>Height total system: 29 cm Hose length: 50cm</i>
Mass	<i>0,89 kg</i>

Certificates

CAA-UK
