

SeaRescue Tactical TS

Reference# 85522-21590M

SeaRescue Tactical TS

This super slim suit is designed for demanding operations within rescue services and first responders/special forces in the military and police.

The suit is a result of year-long development process and testing in partnership with users in the target groups mentioned above.

Facts

- Based on HP's unique basic design for the best possible freedom of movement
- The construction has now been taken a step further with a narrower basic pattern to avoid excess fabric around your body
- To further improve freedom of movement, a unique telescope solution in the waist is added. This solution provides improved freedom of movement, and also a unique flexibility in terms of sizes. A Medium size suit fits both a medium sized person of 175cm in height and an extra large person of 195cm in height.
- The telescopic solution is adjusted to fit your height with the internal elastic braces.
- As standard manufactured in our unique 3-ply Aramid laminate for the best FR protection, breathability and longevity
- May also be manufactured in GoreTex Pazifik/Nomex III, HP Superlight or other laminates if required.
- Standard neck seal in neoprene glide skin, but may also be delivered with our unique adjustable neck seal
- Alternatives to the neoprene glide skin are latex or silicone seals
- Waterproof zipper on the back
- Relief zipper in front
- MOLLE on both sides of the upper chest for mounting of optional communication equipment
- Astra patches on the chest for attachment of e.g. ID
- Unique seat construction without seams eliminates wear points and improves mobility

Product Detail

Area of application	<i>Civil Service/ Rescue Services/ Armed Forces</i>
Type of suit	<i>Special suit Work suit</i>
Material	<i>HP Superlight 3L</i>
Adjustments	<i>Waist adjustment</i>
Main zipper type	<i>PU/Plastic, closed Soft PU/plastic with teeth, closed - 1 zipper puller</i>
