

## SeaPilot Neoprene

Reference# 82690-55290L

This pilot suit was specially developed in conjunction with the Norwegian Royal Air Force 330 Squadron (Rescue Service) for pilots operating in Arctic areas and cold climates. SeaPilot is made from soft, durable neoprene material with integral buoyancy. The suit has a large, special, windproof hood that can be used outside a helmet and is fitted with a mouth piece for manually inflating the suit for improved insulation and flotation. The suit has no formal certification but is the preferred choice of pilots operating in tough and cold areas.

### Facts

- Large windproof hood for use over helmet
- Adjustable semi-rigid cord in hood opening
- Manual oral inflation valve for adjustment of buoyancy and insulation
- Detachable neoprene hood and gloves
- Socks for individual choice of footwear
- Separate waterproof in lightweight PU/plastic - easy to don
- Functional, roomy pockets on legs
- 3mm flexible and durable neoprene fabric
- Separate waterproof zip for easier urination
- The preferred suit for operations in cold areas, made in soft, durable and well proven neoprene material
- No formal certifications, still preferred by pilots operating in arctic/tough conditions
- Whistle and buddyline with floating hook

## Product Detail

<b>Area of application</b>	<i>Helicopter Crew</i>
<b>Material</b>	<i>Neoprene 3mm</i>
<b>Main zipper type</b>	<i>Soft PU/plastic with teeth, closed - 1 zipper puller</i>
<b>Colour</b>	<i>290 Orange</i>
<b>Reflective material</b>	<i>Yes</i>
<b>Pockets</b>	<i>Leg pockets with room for LED lenser, knife light stick etc Pen pocket on shoulder/sleeve Thigh pocket(s) Thigh pockets with place for notebook, iPad etc</i>
<b>Hood</b>	<i>Detachable, in neoprene Wind hood with room for helicopter helmet, adjustable with steel wire</i>
<b>Gloves</b>	<i>5-finger neoprene</i>
<b>Inflation valve for buoyancy</b>	<i>Manual inflation valve</i>
<b>Buddy line</b>	<i>Yes, with floating buddy hook in shoulder pocket</i>
<b>Boots / socks</b>	<i>Socks</i>
<b>Thermal protection without lining/inherent insulation</b>	<i>Ca 1 hour in cold water (watertemp less than 5°C)</i>
<b>Service interval (standard)</b>	<i>When needed</i>
<b>Type of suit</b>	<i>Pilot/Crew suit</i>
