## SeaEco+

SeaEco+ is a further development of our SeaEco immersion suit. The major difference is that this suit is certified for use without a lifejacket. Built-in buoyancy in the collar ensures proper a floating position and adequate freeboard. Vacuum packing saves space and extends the mandatory service interval, which in turn makes this suit excellent value.

### Facts

- Buoyancy pillow in back ensures correct floating position and free-board
- Immersion suit for the merchant fleet
- Flame retardant 5 mm neoprene - with knitted polyester backing for durability
- Emergency light
- With buddy line and floating hook
- Lifting strap with stainless steel D-ring and carabine hook
- Waterproof main zip in PU/Plastic - easy to close
- Approved reflective patches
- Integrated hood with extra closure
- Watertight cuffs
- Detachable gloves attached by elastic bands - stored under flap on sleeves
- Velcro tighteners in legs
- Rubber soles for optimal grip on slippery surface
- SOLAS improved and in accordance with LSA code MED 1.6b as an insulated immersion suit designed to be worn without a life-jacket
- Accepted as an immersion suit by Transport Canada and Russian Maritime Register of Shipping (RMRS)
- May be vacuum packed for extended service intervals (maximum 5 years)
- When stored without vacuum it is required with regular control and lubrication of the main zipper. Zip should be in closed position when stored.
